

IN THE CLAIMS

This is a complete and current listing of the claims, marked with status identifiers in parentheses. The following listing of claims will replace all prior versions and listings of claims in the application.

1. (Currently Amended) A method for calculating a measure of verifying the feasibility of a medical project with acceptance criteria ~~(4)~~ for patients, ~~having the following steps comprising:~~

- setting target criteria ~~(6)~~ are set for the project; ~~;~~
- selecting a patient group ~~(17)~~ comprising including potential patients, ~~is selected with the aid of the acceptance criteria, (4) from a database (10) containing patient data (14) of the patients;~~ and
- evaluating the patient data ~~(14)~~ of the patient group, ~~(17) are evaluated with the aid of the selected target criteria, (6) and calculating a the measure (21) of the feasibility of the medical project is calculated.~~

2. (Currently Amended) The method as claimed in claim 1, wherein:

- the acceptance criteria ~~(4)~~ are modified with the aid of the patient data ~~(14)~~ of the patient group ~~(17)~~.

3. (Currently Amended) The method as claimed in claim 1 ~~or~~ 2, wherein:

- a patient model is compiled with the aid of the patient data ~~(14)~~ of the patient group ~~(17)~~; and
- the acceptance criteria ~~(4)~~ are modified with the aid of the patient model.

4. (Currently Amended) The method as claimed in ~~one of the preceding claims~~claim 1, wherein:

— the patient data ~~(14)~~ of the patient group ~~(17)~~ are used for carrying out the medical project.

5. (Currently Amended) The method as claimed in ~~one of the preceding claims~~claim 1, wherein:

— a clinical study is verified as the medical project.

6. (New) The method as claimed in claim 2, wherein:

a patient model is compiled with the aid of the patient data of the patient group; and

the acceptance criteria are modified with the aid of the patient model.

7. (New) The method as claimed in claim 2, wherein:

the patient data of the patient group are used for carrying out the medical project.

8. (New) The method as claimed in claim 3, wherein:

the patient data of the patient group are used for carrying out the medical project.

9. (New) The method as claimed in claim 6, wherein:

the patient data of the patient group are used for carrying out the medical project.

10. (New) The method as claimed in claim 2, wherein:

a clinical study is verified as the medical project.

11. (New) The method as claimed in claim 3, wherein:

a clinical study is verified as the medical project.

12. (New) The method as claimed in claim 4, wherein:

a clinical study is verified as the medical project.
